Amazon.com: remote start manual transmission

I've read (and many of you too I suppose) that Manual Transmission is a theft deterrent because a lot of people in North America doesn't know how to drive a standard. Well, back in end October 2013, my car was stolen right in front of my house overnight, and it was a standard. I've done a lot of reading and research in car theft technology, car brand and type that is less likely to be stolen ...

Car Theft: Automatic VS Manual - Hackerspace

As far as I know there are just only some manufacturers who produce remote car starters for manual transmission. The main problem is the lack of "intellectual connection" between remote module and the starter. If we take, for example, old and vintage Chevrolet Impala and such type of module to provide that connection, no way we could do that.
