The Citroën BX is a large family car which was produced by the French manufacturer Citroën from 1982 to 1994. In total, 2,315,739 BXs were built during its 12-year history. The hatchback was discontinued in 1993 with the arrival of the Xantia, but the estate continued for another year. The BX was designed to be lightweight, using particularly few body parts, including many made from plastics.

**Starting Citroen BX with new engine**

Diesel oil has been a contender to gasoline for many decades. Earlier diesel engines were not refined enough to win the hearts of many drivers but recent advances in technology made these engines not only worthy competitors in all areas but in some features—fuel economy or low end torque, to name just two—even exceeding the characteristics of their gasoline counterparts.

HISTORY. In 1983, Citroën Compétitions, along with various engineering firms, started to devise BX-model based B/12-class rally cars which were developed alongside the various Visa RWD & 4x4 prototypes. Under the supervision of team boss Guy Verrier, five BX prototypes were built in total; all sporting different specifications and designs, but all using variations of Peugeot's X5N2 engine.
