Herb Adams wrote this many years ago but it is still considered a bible among engineers to this day. Lost my copy from years ago and I am glad it is still available. If you are building something new or are thinking about it, you need this book.

### **By Herb Adams - Chassis Engineering HP1055 (10/20/92 ...**

Review. By Matt Gartner. Herb Adam's "Chassis Engineering" is a holistic "Big Picture" guide to race car handling and design. It is one of the first books I ever read on race car engineering and I'm glad I did. In race car design, you can rarely make a single decision without knowing the impact that decision is going to have on the rest of the car—it's handling, durability, etc.
