Photography How to use manual focus on your dSLR lens. Ditch autofocus for manual focus mode to get more precise control over your shots. Find out how to get started using manual focus, and which ...

### **How to use manual focus on your dSLR lens - CNET**

On the 300 these manual lenses only require manual focusing and settings in fully auto or aperture priority. The camera does the rest. There are two caveats -- the camera's spot metering mode doesn't work with manual lenses (the center weighted does) and the 4/3rds sensor doubles 35mm focal length.
