CHRYSLER CORPORATION CHRYSLER - DODGE - Engine Parts Warehouse

Engine type is coded in Chrysler VINs beginning in 1966. Prior to 1966, the VIN only distinguished a 6 cylinder model from an 8 cylinder model. Chrysler used two VIN systems. The first, used from 1966-1980, has 13 digits, and the engine code is the 5th digit. The second has 17 digits and the engine code is the 8th digit. As usual, there's an ...

Mopar Engine Codes (version 1.4) - Allpar: Dodge, Chrysler ...

Chrysler's parts division generally did not offer engine blocks separately as a part with it's own part number. They were only serviced as part of a "short engine" or short block, complete with crank, rods and pistons, so the following table lists actual casting numbers, not Chrysler part numbers as the rest of the tables on our site do.

Engine blocks from 440 Source.com

One way is to locate the large casting number on the side of the block. Each engine displacement had a unique, or set of unique, casting numbers on the block. A 318 will never share a block casting number with a 273 or 340, nor will a 383 share a block casting number with a 361 or 400.
