Engineering Drawing II - Civil Engineering Notes

An engineering drawing is a means of clearly and concisely communicating all of the information necessary to transform an idea or a concept in to reality. Therefore, an engineering drawing often contains more than just a graphic representation of its subject. It also contains dimensions, notes and specifications.

CE 100 Civil Engineering Drawing Sessional (Lab Manual)

Aeronautical drafters prepare engineering drawings detailing plans and specifications used in the manufacture of aircraft, missiles, and related parts. ... for example, civil engineering, ask "What kind of engineer would design things such as bridges, or railroads, or highways?" Ask what these things have in common? ... Lecture notes and ...

Lecture notes and prep for - ctaeir.org

Building construction. Building construction is the process of adding structure to real property. The vast majority of building construction projects are small renovations, such as addition of a room, or renovation of a bathroom. Often, the owner of the property acts as laborer, paymaster, and design team for the entire project.
