Sensors · Temperature - Fuel Level - Pressure Sensor ...

The secondary engine speed sensor is located on the drivers side of the engine. It is on the back of the front cover in front of the air compressor. It has two wires. If you have a code for it, the sensor has most likely failed. But its good to inspect the harness that connects to it as well. It could also be damaged.

What is a secondary engine speed sensor and where is it ...

Engine Speed/Timing Sensor Circuit - Test SMCS - 1912-038 System Operation Description: ... If the engine will not start, monitor the engine rpm on Cat ET while the engine is being cranked. Cat ET may need to be powered from another battery while the engine is being cranked. This is done in order to ensure that Cat ET does not reset.

Cat C 12 Engine Sensor Diagram • Downloaddescargar.com

The engine may require a slightly longer period of time to start-up. The engine may run rough for a few seconds until the ECM determines the proper firing order by the use of the primary engine speed/timing sensor only. The engine will start and the engine will run when only one sensor signal is present from either of the sensors.
