What are the differences between architectural drawing and ...

Civil engineers are primarily concerned with construction, whether it be of buildings, highways, bridges, tunnels and other necessary structures. In this topic we delve into the matters of designing and constructing projects. Construction Engineering is closely related to Civil Engineering, but more focused on management of the construction site instead of just purely on design and building.

Building Construction & Design - Bright Hub Engineering ...

1. Architectural Drawings . An architectural drawing is a technical drawing of a building (or building project) that is used by architects to develop a design idea into a coherent proposal, to communicate ideas and concepts, to convince clients of the merits of a design, to enable a building contractor to construct it, as a record of the completed work, and to make a record of a building that ...
