Working with a Continental A40-4 engine and looking for information as to what material the original valve guides were made of? Also whether the valve springs were originally cad plated or other from the factory? One final question is if anyone has had Aries pistons made for the A40 and if so, what part number to order? Thank you, David

### **Continental Engines**

If you don't have any engine mechanical experience (rebuilding your car engines, for example), go with the stock Continental engine, or at least an engine designed for small aircraft. The best pick would be an O-200 with no starter or generator (to save weight). This will probably give you the best performance.
