I went out in my Citroen Xsarra Picasso (Diesel, 1.6, 10 years old) this morning and the car started fine. However, after driving for around 3 minutes, and when going around a corner, the car steering wheel seized up on me and some of the lights lit up on the dashboard - ones for the battery, oil and another one (not engine one).

### **Engine warning light on Citroen Xsarra Picasso has come on ...**

The Citroën Xsara was a small family car (C-segment in Europe) produced by the French automaker Citroën from 1997 to 2006. The Xsara was a development of the Citroën ZX and Peugeot 306, which shared a platform and running gear.. It came in three and five door hatchback and five door estate body styles; the estate was marketed as the Break and the three door as the Coupé.

The fuel tank is located on the opposite side of the vehicle to the engine for safety reasons. The fuel system also has a fuel pump attached either to the fuel tank in newer models, or to the engine in older vehicles. This pump is operated either by the car electrics or by the engine depending on where it's located.
