building street or track versions of the Clevor small-block. To understand what it takes to build a 351C-headed small-block Ford, you need to know the differences between the Windsor-style and Cleveland-style engines. Because the 351C employs vastly different cylinder heads, with canted valves, than the 289/302/351W, the

If you want something unique and dont mind spending a little more money to have it, then a clevor is a really cool engine to build. Noone builds them anymore cause they are not cost effective since there is 10 different 351W heads available. I am building one in the next few months for myself and will detail the build on this forum.

O K gentlemen, this is a great chance to hammer me. I've started collecting engine parts to build a Ford Clevor 302 stroked to 347. I know using 351 W heads makes more sense than using Cleveland heads, this is a "I WANT TO DO THIS BUILD". This will probably be the last engine build I ever do so I want to build it "old school, like I am".
