

Cfm56 5a Engine

[Download File PDF](#)

This is likewise one of the factors by obtaining the soft documents of this cfm56 5a engine by online. You might not require more period to spend to go to the books opening as capably as search for them. In some cases, you likewise accomplish not discover the broadcast cfm56 5a engine that you are looking for. It will agreed squander the time.

However below, afterward you visit this web page, it will be suitably no question simple to acquire as competently as download guide cfm56 5a engine

It will not tolerate many get older as we accustom before. You can pull off it even though doing something else at home and even in your workplace. correspondingly easy! So, are you question? Just exercise just what we provide below as without difficulty as evaluation cfm56 5a engine what you taking into consideration to read!

Cfm56 5a Engine

The CFM International CFM56 (U.S. military designation F108) series is a French-American family of high-bypass turbofan aircraft engines made by CFM International (CFMI), with a thrust range of 18,500 to 34,000 pounds-force (82 to 150 kilonewtons). CFMI is a 50-50 joint-owned company of Safran Aircraft Engines (formerly known as Snecma) of France, and GE Aviation (GE) of the United States.

CFM International CFM56 - Wikipedia

The CFM56-5B is the engine of choice for the A320 family, having been selected to power nearly 60 percent of the aircraft ordered. Today, it is the only engine that can power every model of the A320 family with one bill of materials.

CFM56 - CFM International Jet Engines

Specifically designed to power the Airbus A320 short/medium-range twin-engine jet at the outset, it later added the shortened A319 version of this aircraft. Developing 22,000 to 26,500 pounds of takeoff thrust (98 to 118 kN), the CFM56-5A is a proven, cost-effective advanced technology engine, derived from the CFM56-2 and CFM56-3 engines.

CFM56 Engines - CFM Materials

CFM International, a 50/50 joint company between Safran Aircraft Engines and GE, develops, produces and markets CFM56 ® engines, which now power some 13,400 single-aisle commercial jetliners worldwide. Renowned for its unparalleled reliability and low cost of ownership, the CFM56 is the best-selling engine in the history of aviation.
