Car Body Parts Diagram. Shop car body panels » ... The overall car door is made of several components, but this term refers to the largest outer panel and shell. Your car's door panel provides attachment points for handles and, more often than not, side-view mirrors. Areas at the bottom of doors can trap water, dirt and debris.

Car & Truck Panel Diagrams with Labels | Auto Body Panel ...

The door industry has its own language for things, as you might expect. Door manufacturers, door installers, and contractors may all speak to you using a variety of terms. Learn how Pella defines door parts and components.

Parts of a Door - Door Anatomy - Glossary| Pella

A car door is a type of door, typically hinged, but sometimes attached by other mechanisms such as tracks, in front of an opening which is used for entering and exiting a vehicle. A vehicle door can be

opened to provide access to the opening, or closed to secure it. These doors can be opened manually, or powered electronically.

Car door - Wikipedia

Before you can install locks in your car door, preliminaries have to be done, including removing some parts of the car so that the lock can be put in place. You should first remove the panel from the inside of the car door by sliding a flat-head screwdriver between the panel and the door frame and prying it free.
