I have always loved Comcast cable and now also have internet and phone. I was unable to get an adequate/modem router so am leasing the SMC Networks SMCD3GNV from Comcast. Twice in the last 2 weeks the WiFi has failed and I have "power cycled" the modem/router as described in the Comcast Xfinity booklet.

SMCD3GNV ROUTER - forums.xfinity.com
Another option would be to ask Comcast to put the modem-router into bridge mode (which will then pass all traffic through the modem-router) and add another router that has UPNP available. This second router could be a business class router or a consumer grade router (something like a DLink DIR-655). It depends on your risk tolerance and needs.
